Introduction

LRT (Pvt) Ltd. is a leading multiset solution provider which alongside digital marketing, also deals in the area of Telecommunication, UAN Solution & SMS Gateway provision, software development, as well as a professional taxation consultancy. It offers cutting-edge products and services to its valued customers. With great focus on the quality of service, we are one of a kind that can overshadow your expectations as quality service is our motivation which ensures customer firm's growth as our esteemed clientele.

OUR VISON

To be the preferred provider of high-quality, timely information communications technology services and solutions..

OUR MISSION

Fulfilling our customers' evolving communications needs and exceeding their service expectations aggressively and competitively, while providing responsible returns to our shareholders and creating mutually beneficial relationships for our employees,vendors, and the communities in which we do business.

WHY US

We are good at what we do and we get results. We learn about your businesses, and present custom solutions according to its specific needs. We want to add value and, even within a fixed-fee retainer, our goal is always to create meaningful business opportunities for our clients.

OUR SERVICES

Branded SMS

Branded SMS marketing is an effective way for businesses in Pakistan to engage their customers, send regular updates, launch campaigns, and so on. LRT (Pvt) Ltd. provides dependable and affordable branded SMS marketing in Pakistan while targeting the appropriate audience to maximise results.

SMS Broadcast

SMS Broadcast is a revolutionary new and inexpensive way to advertise. SMS marketing (also known as text message marketing or bulk SMS) remains a profitable marketing platform for businesses of all sizes and investment capital.

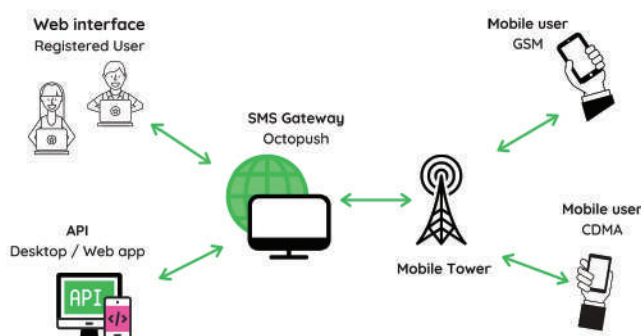

Short Code

A short code is a four to five-digit number. Businesses frequently use short codes to allow customers to opt-in to SMS campaigns, alert services, or SMS competitions. Short codes are intended to be easier to read and remember than regular phone numbers

SMS GATEWAY

Reach customers around the world with secure, reliable, and fast bulk SMS messaging. Our SMS Gateway is a reliable messaging solution for our partners, resellers, aggregators, and large enterprises who seek full message-level delivery controls and custom routing configurations for international and optimized local SMS delivery

UAN SOLUTIONS

LRT (Pvt) Ltd. provide its clients with options based on their needs. We also offer the services of The Universal Access Number (UAN) which can put the customers in complete peace of mind with one time solution to avoid hectic management and communication issues. We offer UAN numbers with multiple extensions for our client's business needs. Incoming calls on Virtual box can be answered on mobile phones anywhere within Pakistan

Call Packages

LRT (Pvt) Ltd. is a cellular and digital services provider in Pakistan that is an local provider of voice, data, content, and mobile communication services for all customers based on individual usage requirements based on extremely affordable Data, Calls, and SMS packages.

WhatsApp Solution

WhatsApp Business for Your Customer Communication Communicate with your customers via the world's most used messaging app WhatsApp. As a verified WhatsApp Business Solution Provider, Messenger People enables you to communicate professionally, efficiently and in compliance with data protection regulations via the official WhatsApp Business interface (API). Be present where your customers are and benefit from the powerful opportunities of WhatsApp for your business's success

|| WEB DESIGN ||

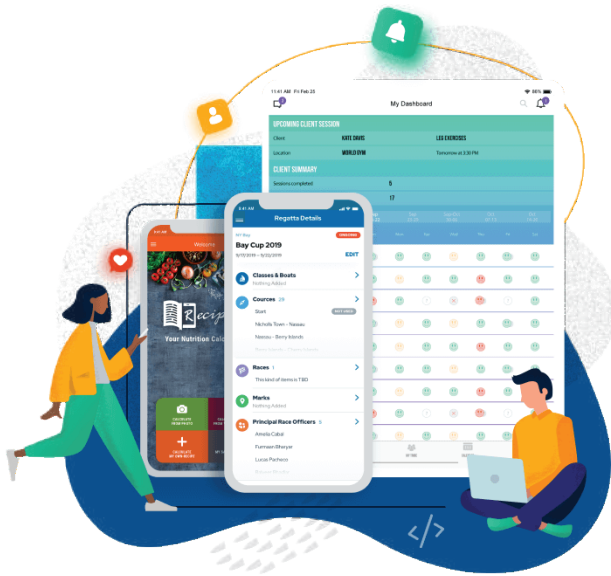

Website Design & Development

LRT (Pvt) Ltd. has a competitive advantage because we have a team of experts in website development and website design from the ground up. We have also completed numerous web development projects with extensive experience in this field, including business websites and e-commerce websites.

Web Hosting and Domain

A web host is required for every website. In Pakistan, we offer web hosting and domain registration services. You can use us as web hosting provider to distribute and publish your material all over the internet. In terms of technology and devotion, we are well prepared.

Mobile App Development

LRT (Pvt) Ltd. mobile applications are much more than just apps. We are aware of their power and the extent to which they can influence a consumer. We are a full-service Android App Development and iOS App Development agency in Pakistan, offering everything from product conception to product execution.

SEO

We offer search engine optimization services to both big and small businesses. We are one of the best SEO firms in Pakistan and guarantee the quality of web traffic. Our search engine optimization services also include On-page SEO, Off-Page SEO, Amazon SEO, eBay SEO, Alibaba SEO, Website SEO, and E-commerce SEO.

SOFTWARE DEVELOPMENT II

Customize Software Solution

Because of the superior functionality provided by a custom solution, custom software development is a way to gain a competitive advantage in the market. We provide custom software development services to plan and deliver tailored quality software in a dependable and timely manner. We create systems such as **ERP, CRM, SCM, EAM, MES, POS, PIS, and PAC.**

School Management software

To survive in this technologically driven era, all educational institutions require an automated system. Our school management software includes cutting-edge features that can help simplify all school operations, allowing schools to focus on preparing their students to compete in a globalized world

POS

A point of sale software is defined as software that is located at the point where your customer pays for products or services at your store. Today, POS software is becoming increasingly popular among Pakistan's small and medium-sized businesses. Our POS software is designed to help you manage and grow your business. It provides a complete solution that will improve the efficiency and performance of any business!

|| E-MARKETING ||

Email Marketing

Due to the increasing use of technology, marketing is not what it used to be before the internet became easily accessible to everyone. Apart from using social media as a marketing platform, another thing that allows businesses to connect with their potential customers using very few resources is Email Marketing. All you have to do hire us and rest we do.

Facebook Marketing

The current decade is the digital marketing decade, and Facebook is a major pillar and effective form of it. It enables brands and businesses to communicate with their target audiences, reach millions of people instantly, and generate significant revenue. We can manage various types of Facebook campaigns, such as awareness, lead generation, video views, get more messages, and many others, based on your requirements.

SMS MARKETING

SMS marketing is becoming increasingly important in online marketing mediums. With each passing day, branded SMS is gradually supplanting email marketing solutions strategies. LRT (Pvt) Ltd. provides mobile marketing services in Pakistan with the assurance of achieving the desired results.

OUR TEAM

The seasoned professionals and industry veterans that lead our teams and Departments. We are driven by the profound experience and business acumen That these gifted individuals share with us every day.
